ABOUT ME

First-year Telecommunication student at SUP'COM, passionate about web development with a strong interest in cybersecurity and machine learning. As a motivated beginner, I see this summer internship as an opportunity to gain hands-on experience and strengthen my skills.

EDUCATION

1st year of engineering cycle – Higher School of Communication of Tunis (SUP'COM) **September 2024 – May 2025**

Telecommunications major

Preparatory classes for engineering studies – IPEIM, Monastir **September 2022 – Juin 2024**

Admitted to the National Entrance Exam for Engineering Schools among the top-ranked candidates

Baccalauréat Sciences Techniques – Mention Bien **2022**

Sbikha High School, Kairouan

ACADEMIC PROJECTS

Patient Management System – C: Developed a C program to manage patient information (add, edit, search, delete) using structures and file handling.

Hotel Database – MySQL: Design of a relational database for hotel management, including modeling, table creation, and SQL queries.

Arithmetic and Logic Unit – VHDL: Designed an ALU in VHDL, implemented on a Basys FPGA board, enabling basic arithmetic and logic operations.

SKILLS

Project Management: Participated in the PACTE Project (Support Program for Business Competitiveness and Transformation) as part of a team. Our project won the Best PACTE Project award.

Programming Languages: C/C++, Python

Database: MySQL

CERTIFICATIONS

- **CCNA 1** – Introduction to Networks (Cisco Networking Academy)
- **Matlab Onramp (MathWorks)**
